The pressure relieving heel lifter

Product description

The heel lifter heel up[®] medium 15 cm. is designed to give complete heel relief. The cushion is shaped with a deepening for the Achilles tendon and a height that supports the foot.

heel up[®] medium 15 cm. is an optimal positioning cushion when the bedbound patients need comfortable and pressure relieving mattresses as well as a certain amount of mobility. The cushion thereby ensures stability without hindering the patient's movements.

Even with the slightest movement, the cushion will stimulate the microcirculation of the skin, which optimises circulation.

heel up[®] is made of non-woven material, which makes the cushion soft, skin-friendly, heat and moisture absorbent and comfortable with optimal pressure relief.

Advantages:

- Designed for the prevention and treatment of pressure sores in the heel region
- Single-use ensures high hygiene
- Simple and easy to use
- Good comfort
- Soft, skin-friendly, heat and moisture-absorbent material
- Space saving in the depot and liberating staff resources
- Delivered in clean, sealed and slim packaging incl. inflation device
- Tested and approved in accordance with ISO 10993-10:2010 skin irritation and sensitisation
