The pressure relieving seating cushion

Product description

Seat All Flexi, Seat cushion for faecal catheter system / faecal collector bag.

The Seat All Flexi seat cushion is designed for patients who use faecal catheter system or faecal collector bag.

Seat All Flexi allows the patient to sit up without any pressure on the anus and at the same time ensures that the tube from the catheter system does not get pinched or that the faecal collector bag leaks.

Max 150 kg.

Advantages:

- Designed for the prevention and treatment of pressure sores in the most exposed areas..
- The cushions are multi-functional which means that the same product can be used for many different positions, optimising the prevention and treatment of pressure sores.
- Single-use ensures high hygiene.
- Simple and easy to use. Seat All[®] is inflated prior to use and adapted according to the individual's anatomy and needs.
- Good comfort.
- Soft, skin-friendly, heat and moisture-absorbent material.
- Space saving in the depot and liberating staff resources.
- Delivered in clean, sealed and slim packaging incl. inflation device.
- Tested and approved in accordance with ISO 10993-10:2010 skin irritation and sensitisation.
