## Multi Max - The pressure relieving positioning cushion

## Product description

Positioning cushion, particularly suitable for patients with hip fractures and where the lower limb needs to be raised above heart level. This helps to reduce swelling. Max. 150 kg.

The ergonomic design of the cushion ensures stability without hindering the patient's movements.

Even with the slightest movement, the cushion will stimulate the microcirculation of the skin, which optimises circulation.

These qualities makes All Up® an optimal positioning cushion when the bedbound need comfortable and pressure relieving mattresses.

All Up® is made of non-woven material, which makes the cushion soft, skin-friendly, heat and moisture absorbent, comfortable and elastic.

## Advantages

- Designed for the prevention and treatment of sores in the most exposed areas such as heels, hips, elbows, shoulders, back, etc.
- The products are multifunctional, meaning that the same product can be used in various pressure relief situations, ensuring that pressure ulcer prevention and treatment are carried out effectively.
- Single-use ensures high hygiene.
- Simple and easy to use. All Up® is inflated prior to use and adapted according to the individual's anatomy and needs.
- Good comfort. Soft, skin-friendly, heat and moisture-absorbent material.
- Space saving in the depot and liberating staff resources.
- Delivered in clean, sealed and slim packaging incl. inflation device.
- Tested and approved in accordance with ISO 10993-10:2010 skin irritation and sensitisation.
