KIDS - The pressure relieving positioning cushion

Seat All Produktdatablade 2026 v1 (Kids EN)

Product description

Seat cushion for children.

Extra reinforced.
Pressure-distributing for the prevention and treatment of pressure ulcers.

Maximum user weight: 150 kg.

Advantages

- Designed for the prevention and treatment of pressure sores in the most exposed areas such as heels, hips, elbows, shoulders, back, etc.
- The cushions are multi-functional which means that the same product can be used for many different positions, optimising the prevention and treatment of pressure sores.
- Single-use ensures high hygiene.
- Simple and easy to use. Seat All® is inflated prior to use and adapted according to the individual's anatomy and needs.
- Good comfort.
- Soft, skin-friendly, heat and moisture-absorbent material.
- Space saving in the depot and liberating staff resources.
- Delivered in clean, sealed and slim packaging incl. inflation device.
- Tested and approved in accordance with ISO 10993-10:2010 skin irritation and sensitisation.
